The Use of Compatible Supplies Cannot Void Your Printer's Warranty

It is illegal for anyone to lock your warranty of a product to the use of their consumables. Saying that your printer warranty requires OEM toner or ink is untrue.

In addition: If your machine is damaged and it can be proven that our cartridges were the cause, Think Ink will repair or replace it free of charge!

Don't forget we guarantee all our products 100% if you are not satisfied we will re-fund or replace your product.

MAGNUSON-MOSS WARRANTY IMPROVEMENT ACT

United States Code Annotated—Title 15 Commerce and Trade Chapter 50 Consumer Product Warranties 15 Section 2302

© No warrantor of a consumer product may condition his written or implied warranty of such product on the consumer's using, in connection with such product, any article or service (other than the article or service provided without charge under the terms of the warranty) which is identified by brand, trade or corporate name; except that the prohibition of this subsection may be waived by the commission if:

- 1.The warrantor satisfies the Commission that the warranted will function properly only if the article or service so identified is used in connection with the warranted product, and
- 2.The Commission finds that such waiver is in the public interest.

How this affect you:

The use of our printer cartridge does NOT void your printer's warranty. The manufacturer of the printer you are using cannot void the warranty on your printer because you use a cartridge manufactured by someone other than the printer manufacturer. This includes the use of compatible cartridges and re-manufactured cartridges.

IBM vs The United States ANTITRUST LAW

(The Sherman and Clayton Antitrust Act)

US law also prohibits the manufacturers of your equipment from requiring the use of OEM ink or toner or charging extra fees if you use products other than the OEM products with their equipment. Those requirements and/or fees are in violation of existing anti-trust acts:

The Sherman and Clayton Antitrust Acts (see also: Supreme Court decision: IBM vs. The United States 1936) http://www.usdoj.gov/atr/public/div_stats/1638.htm—<http://www.ftc.gov/bcp/conline/pibs/buspubs/warranty.htm>

The Supreme Court (IBM vs The United States) held that IBM could not threaten customers with termination of their data processing equipment leases just because the didd not use supplies manufactured by IBM. Such practice constituted a tying agreement and was found to be in violation of the Sherman and Clayton Antitrust Law.

How this affect you:

Free choice of vendor allows for competition and keeps prices affordable. Your printer manufacturers are aware of lower priced supplies. Threatening to void warranties and add additional service call charges for use of compatible ink and toner are their way of trying to limit competition. The Sherman and Clayton Antitrust Law protects you form limiting competition, price and choice.
